Dear Brian,

Stinker Stores installed Fuel Smart in June of 2006 with the help of Pinnacle consultant Patty Williams. Since the implementation of Fuel Smart we have a better understanding of our Wholesale Fuel Business and tools to assist us with tax reporting and margin analysis for our Retail Locations. Now we can truly know the score and keep the score!

Fuel Smart is an excellent reporting tool. Every month we find a new use for the detail stored in our database. We also have more cross training within our organization than we did with our previous Fuel Management system. We were able to integrate a remote Wholesale Operation using Fuel Smart and have eliminated duplicate processes.

The Pinnacle support staff is very conscientious and have done a good job of making us self sufficient. We haven't logged a support call in the past several months!

Installing Fuel Smart was certainly a good decision for Stinker Stores.

Sincerely,

Charley Jones,
