**Palm POS™ Offers security and flexibility for convenience retailers. Whether you've made the decision to upgrade your systems and forecourt to EMV or are looking for alternatives, we have solutions that can help!**

**Check out this video on our CardTrust EMV Alternative solution that provides protection against fraud but doesn't break the bank.**

### **Other Pinnacle Palm POS™ Benefits**

- Open platform, supported through an ASC company or by your own trained staff.
- Certified for EMV compliance with payment processor partners and certified with Verifone Commander EF for payments and fuel control
- Alternative payment options. Reducing credit card transaction fees is every retailer's goal. Palm POS™ offers alternative payment options that include ACH Debit, Retailer Branded Stored Value programs, and Mobile Payments.

## **Pinnacle Palm POS**

***Palm POS™ Reliable. Secure. Connected.*** Pinnacle's Palm POS™ has been specifically designed for the petroleum convenience store industry since the early 90s and is running in convenience and petroleum locations across the US. Palm POS™ is highly configurable and provides the flexibility to work within any infrastructure and with a variety of peripherals and back office systems. Pinnacle offers Palm

POS™ in multiple options to fit any retailer's convenience operation. And when combined with Pinnacle's Loyalty solutions and mobile payments, Palm POS™ becomes the most powerful resource in your c-store.
