Affiniti Cloud Point of Sale Supports NACS TruAge™ Technology

NACS along with Conexxus is leading efforts to revolutionize age verification in convenience retail. The turnkey, next generation solution will verify a user's age while also protecting personal information and delivering a frictionless experience. Pinnacle's Affiniti Cloud POS with TruAge™ age-verification process includes capabilities such as:

- ✓ ID validation
- ✓ Age calculation
- ✓ Control of manufacturer-restricted goods
- ✓ And the ability to anonymize verification to protect personal information and consumer privacy

Want to know more about this technology?

Check out this article **"Features Decentralized identity: Proving it's really you in the 21st Century"** published by Cointelegraph, where our **Vice President of R&D, Peter Steele**, provides his insights.
